It's recommended to use a bow for this build because it can be more efficient for the damage than the gun is. NOTE: Using a weapon that does less than 300 damage over 100 frames (Sonic Arrow, RNG\_pistol, etc.) will increase the projectile damage rate but decrease the projectile life. This build is very similar to the earthbound, but deals more damage and has a lot more range to it's hits. One of the most versatile builds. A great build that can be used as a tank or as a support. A very high rate of fire build that deals a lot of damage and has a decent knockback. The only build that deals more damage than the.45 and is stronger than the.45. A very high damage output build. A fast and efficient build that deals reasonable damage and doesn't 82157476af
